

# Garden Fresh Pure Natural Totapuri Mango Pulp

## Extracted From Premium Quality Hand Picked Totapuri Mangoes

Mango is the embodiment of all fruits. Our Totapuri Mango pulp is made from a selected variety of the best quality of Totapuri Mango fruits. Fully matured Totapuri Mangoes are harvested, swiftly transported to our processing plant, inspected, washed and processed. The end result is liquid gold in color. Our strict quality checks and processes ensure that every drop of our Totapuri Mango pulp is rich in taste, color and texture, retaining the original fruit's unique characteristics of energy and vigour. As a result you get a product that has excellent nutritional source of vitamins, minerals and antioxidants, as well as enzymes, which aid in digestion and intestinal health.
